SEATING SERIES

MX2 Backrest

Specially engineered carbon Fiber
providing unmatched stability for the
ultimate performance

Yes, you can.

Designed for active users, the **MX2** is an ultra-lightweight backrest with a fresh look and attractive design. A stylish add-on to any lightweight manual wheelchair, the **MX2** offers exceptional support to the lower trunk and pelvis, adding comfort and stability for optimised function – whether it be to self-propel or engage in day to day activities.

With the **MX2**, you have it all – aesthetics, support, comfort and functionality.

Lightweight carbon fiber shell

The **MX2** has been specially designed using several layers of carbon fiber to optimise flex and shock absorption. This means that the backrest will have the flexibility to accommodate the users' movements whilst helping to keep them in a midline position; which is exactly what an active user needs – stable freedom of movement. It will also play a major role in vibration dampening, especially when combined with the carbon fixation hardware, which enables users to ride more comfortably.

The perfect shape

The **MX2** offers a 76 mm depth of anatomical contouring for enhanced lateral stability and immersion of the trunk. Lateral cutouts for the hips allow increased freedom of movement; ideal when leaning laterally for pressure relief or when reaching to pick up objects. The scapula cutout allows for freedom of movement of the shoulder blade, without compromising on support, allowing the user to self-propel efficiently, even with a higher back.

Features and options

Back shell

- Available in four heights and five widths allowing everyone to find a perfect match
- Cutouts for breathability to help manage microclimate
- Slotted design to allow height adjustments even when the user is in the chair
- Breathable Spacetex cover – backrests 230 mm or higher come with leatherette side panels
- Oversized foam for enhanced comfort and protection

Easy fit hardware

The **MX2** comes available with two types of hardware – Fixed Mount or Quick Release – both allowing for 3D adjustment in:

- Height
- Depth (76 mm with Fixed Hardware; 108 mm with Quick-release Hardware) and Angle (+/- 15° stepless)
- Rotation

The backrest hardware is also width adjustable, allowing the backrest to be fitted to wheelchairs that are up to 25 mm narrower or wider than the actual backrest width – an ideal feature for those with a wider back and narrower hips, or a narrow back and wider hips. All of these adjustment possibilities ensure a precise fit and positioning in every rigid or foldable frame wheelchair with a backrest tube diameter of 19 mm, 22 mm and 25 mm.

Fixed mount

Constructed with a carbon fiber plate to reduce overall weight.

Quick release

Easy to remove for portability.

Features and options

Privacy flap

An optional privacy flap which covers the opening between the seat and back.

Positioning Pad

A lumbar pad is included as standard, providing lower back support for those who need additional comfort.

MX2 Deep Laterals

Provide extra mid-line support and stability - 85mm of extra deep contour to the standard backrest contour.
Pad 140 mm H x 76 mm L

SEATING SERIES

E2 Back Series

Invacare[®] **Matrx[®] E2[™] Back Series**

INNOVATION | COMFORT | FREEDOM

Yes, you can.™

Posture Support to enable independent mobility

The new **E2 Back Support** is our latest innovation in seating, offering maximum postural support for those with reduced mobility. With a pin assembly function for effortless mounting, the **E2 Back Support** is also available in a wider range of widths and heights to ensure maximum fit. The new leading edge Ripple Foam technology provides temperature control and enhanced immersion for the most comfortable support ever.

Ergonomic Design

The new ergonomic design increases support and pressure distribution to ensure a more precise and comfortable fit. The design has been contoured to support the pelvis and allow clearance of the hips to increase stability and balance.

Back Shell

- ▶ Cutouts for airflow
- ▶ Vertical slots for Hardware attachment
- ▶ Coccyx notch
- ▶ Pre-drilled for PostureFlex Abdominal support

Ripple Foam Technology

The rippled foam surface increases airflow for breathability, temperature control and moisture reduction. The high resilience foam provides the spinal relief area with enhanced immersion and shear reduction.

Cover

- ▶ Moisture resistant and breathable Meshtex™ outer cover
- ▶ Foam and cover overlap the shell for protection and comfort

Mounting Pin Assembly

The back supports are mounted onto the chair and secured with an easy adjust mounting pin assembly. The flexible hardware is designed to match the needs of a range of body shapes and sizes, and can even be adjusted when the user is seated. It can also be positioned to avoid frame obstacles - such as arm supports and rigidizer bars etc.

Mounting Pins

- ▶ Height and width adjustable
- ▶ Fits chairs same as model width or 2.5cm wider / narrower
- ▶ Back height can be adjusted even with user seated in back
- ▶ Hardware can be positioned to avoid frame obstacles like arm supports and rigidizer bars
- ▶ MiniSet interface standard on back heights up to 41cm, EasySet interface standard on 46/51cm back heights

The Matrix E2 Back Support is available in two contour depths

▲ **E2 Back**
E2 Standard - 8cm Contour

▲ **E2 Deep Back**
E2 Deep - 15cm Contour

Product Specifications

- ▶ Width: 36/38/41/43/46/48/51cm
- ▶ Height: **NEW 15/20/26/31/36/41/46/51cm**
- ▶ Weight Capacity: 136kg.

Easy Fix Laterals

- ▶ Fixed laterals can be installed inside or outside of the back shell
- ▶ Height adjustable in vertical slot, can be offset
- ▶ Compatible with E2 standard contour backs 26cm and higher

Inside Mount Outside Mount

Swing Away Laterals

- ▶ Standard compatible with E2 backs 26cm and higher, offset with backs 31cm and higher
- ▶ Available in 4 pad sizes: XS / S / M / L

▲ BackBone

Sacro lumbar support targets pelvis to promote an upright posture.

- Contoured anatomical PSIS/ Sacrolumbar Support.
- Can be trimmed to desired size.
- Molded in loop fastener for attachment to back shell and ease of adjustment.

▲ Matrix Protect Slip Cover

To protect the backrest. Can be wiped clean with approved disinfectant wipes for greater hygiene. Easy to apply and remove for laundering.

▲ PostureFlex Abdominal Support

Designed to increase intra-abdominal pressure for enhanced voice and breath control. Provides comfortable upright postural support with flexible stretch for functional activities.

Easy keyhole attachment

- 3 mounting heights available in pre-drilled holes on back shell.
- Available in 2 sizes: M / L
- Optional quad release tab for easy independent application and removal of PostureFlex

▲ Headrest Interface Plate

Lightweight and low profile headrest attachment plate can be installed without cover removal. Included with all backs 36cm and higher. Optional extra strong steel headrest mount for extreme tone or heavy use applications.

▲ Shoulder Strap Interface Plate

Interface plate for precise placement of Strap Guides.
Models:
E2CHI-S: 36/38cm W backs
E2CHI-M: 41 to 51cm W backs

▲ Matrix Privacy Flaps

Can be attached to the backrest with a pre-sewn loop strip located across the bottom rear of cushion cover.

Available in 4 sizes:
XS / S / M / L

Full range of hardware mounts ▼

for different applications and greater compatibility with our wheelchair range

Standard Hardware

MiniSet:

- ▶ Standard on all E2/E2D backs up to 41cm high

EasySet:

- ▶ Standard on all E2/E2D backs 46cm & 51cm

Optional Hardware

Fixed MiniSet:

- ▶ Permanent mount requires tools for removal, recommended for tilt/recline applications
- ▶ Optional for E2/E2D backs up to 41cm high

Fixed EasySet:

- ▶ Permanent mount requires tools for removal, recommended for tilt/recline applications
- ▶ Optional for E2/E2 Deep backs with Easy Set Mounting Pin Interface only (46 & 51cm high)

Split:

- ▶ Allows clearance of frame obstacles, quick release
- ▶ Optional for E2/E2D backs with Easy Set Mounting Pin Interface only, not compatible with MiniSet

Heavy-Duty MiniSet:

- ▶ Recommended for users with high tone or heavy use
- ▶ Quick release

Heavy-Duty EasySet:

- ▶ Recommended for users with high tone or heavy intended use

Adjustments: Angle (40°), depth (5cm in front or behind back canes), can be offset to accommodate rotation.

Fits: 2.5cm back canes, inserts for 1.9cm and 2.2cm back canes included

Lateral Options for *Matrx Elite Back*

Fixed

6 cm of vertical adjustment on back shell. Mount inside back shell without interfering with depth/angle adjustment. Available in standard Length 19cm x Height 13cm and pediatric Length 14cm x Height 8cm sizes.

- **PBLS-L** Standard Left Lateral (each) complete with Pad (19 cm L x 13 cm H).
- **PBLS-R** Standard Right Lateral (each) complete with Pad (19 cm L x 13 cm H).
- **PBSS-L** Small Left Lateral (each) complete with Pad (14 cm L x 8 cm H).
- **PBSS-R** Small Right Lateral (each) complete with Pad (14 cm L x 8 cm H).

Offset Fixed

Provides an additional 8 cm of vertical position (higher or lower) relative to mounting slots. Available L - 19cm x H - 13cm.

- **PBOL-L OR PBOL-R** Offset Left or Right Fixed Lateral complete with Pad (each).

Swing-Away

6 cm of vertical adjustment on back pan. Mount inside back shell without interfering with depth/angle adjustment. Easy push button release 4 pad sizes. Swings completely behind back. Does not interfere with flip-back arms. Pads ordered separately (see below).

- **SAHEB** Left or Right Swing Away Lateral (each).

Offset Swing-Away

Provides an additional 8 cm of vertical position (higher or lower). Mount inside back shell without interfering with depth/angle adjustment. Easy push button release, 4 pad sizes. Pads ordered separately (see 'Lateral Pads' below).

- **OSAH-L OR OSAH-R** Offset Left or Right Swing Away Lateral (each).

Please note, dimensions have been rounded to the nearest centimetre for your convenience. For more accurate dimensions in millimetres please see Technical Specifications on pages 10 and 11.

Headrest options

Headrest Adapter

Allows the headrest to be mounted directly onto *Invacare Matrx Elite backs*. Available in 3 sizes.

- Small: For attachment of headrests to Elite Backs 31 cm wide
- Medium: For attachment of headrests to Elite Backs 33 - 43 cm wide
- Large: For attachment of headrests to Elite Backs 46 - 51 cm wide

Soft Pad Headrest Kit - PHRK

- Multi-Axis hardware
- Dual pivot balls for pad orientation
- Depth adjustable through horizontal slide bar
- 25 cm soft pad

Headrest Cutout Reinforcement

The *Matrx PB and Elite Backs* are prepared for the easy attachment of headrests through pre-drilled holes and a cutout area on the upholstery of the outer cover. This will prevent fraying of the fabric as well as allow easy removal of the cover for laundering without having to remove the headrest attachment plate.

Lateral Pads

To be used in conjunction with SwingAway and Offset SwingAway Laterals (for *Elite Back*):

- **EPAD-XS** Extra Small 11 cm (L) x 8 cm (W) (each).
- **EPAD-S** Small 13 cm (L) x 9 cm (W) (each).
- **EPAD-M** Medium 15 cm (L) x 10 cm (W) (each).
- **EPAD-L** Large 17 cm (L) x 11 cm (W) (each).

Invacare **Matrix PB Back**

The *Invacare Matrix PB Posture Back* is contoured to provide midline support and positioning. The extensive range of sizes provides exceptional support and comfort for a variety of customers.

Foam:

- Moulded foam wraps around shell for maximum comfort and protection

Outer cover:

- Moisture resistant and breathable
- Available in black

Sacral/lumbar support:

- Includes removable positioning pad

Back shell:

- Contoured shell provides exceptional midline support and positioning
- Durable, lightweight ABS back shell includes built-in plate for headrest attachment

Hardware (ordered separately):

- Hardware installed and adjusted in minutes - adjustments can be made while user is seated in the wheelchair
- Easy Set, Split or Fixed mounting hardware available
- Refer to Hardware page 8

Invacare **Matrix PB Deep Back**

The *Invacare Matrix PB Deep back* is contoured to provide increased midline support and positioning. Provides the same features as the standard Posture Back with increased contour depth for more midline guidance and positioning.

Foam

- Molded foam wraps around shell for maximum comfort and protection

Outer cover:

- Moisture resistant and breathable
- Available in black

Sacral/lumbar support:

- Includes removable positioning pad

Back shell:

- Contoured shell (standard/deep) provides exceptional midline support and positioning
- Durable, lightweight ABS back shell includes built-in plate for headrest attachment

Hardware (ordered separately):

- Hardware installed and adjusted in minutes - adjustments can be made while user is seated in the wheelchair
- Easy Set, Split or Fixed mounting hardware available
- Refer to Hardware page 8

Invacare **Matrix Hardware**

The *Invacare Matrix Easy Set hardware* is easily installed in minutes, and all adjustments can be made with the user seated in the wheelchair.

Key Features and Functional Benefits

- Quick release for easy portability
- Infinite adjustment of depth 10.2 cm, angle (40°) and rotation
- Fits 1.9 cm, 2.2 cm and 2.5 cm diameter canes

Optional Privacy Flap Attachment

All **Matrix PB Backs**, **Matrix Elite Backs** and **Matrix MX1 Backs** include loop fasteners for easy addition of the optional Privacy Flap. Four standard sizes of Privacy Flaps will be available to fit all standard backs from 30.5 to 50.5 cm wide. Model numbers PLAP-XS/S/M/L. **Matrix PB backs** having widths greater than 50.5 cm can be ordered with the Privacy Flaps at time of order.

Features and options

Styles

Invacare Matrix backs: Elite, Elite Deep, PB and PB Deep are interchangeable on the **Easy Set Hardware**.

Heights

Several back heights available to provide support from low to upper thoracic.

Widths

Backs widths from 28-74 cm are available to provide exact fit for each user.

Contour Depth

Choice of 4 contour depths for appropriate midline support requirements.

Accessories - Mounting Pins

Standard Mounting Pins

Standard mounting pins (included with all *Invacare Matrix PB/Elite backs*) allow the *Invacare Matrix PB back* to fit chairs 2.5 cm narrower or same model width. Allows **Elite Back** to fit chairs the same width

Extended Mounting Pins

Optional extended mounting pins available for *Invacare Matrix PB & Elite Backs* (Not available on Heavy Duty PB backs). Allows the back to fit chairs up to 5 cm wider.

Longer Mounting Pins

Longer mounting pins (included with all *Invacare Matrix PB/Elite backs*) allow the *Invacare Matrix PB* and **Elite Backs** to fit chairs 2.5 cm wider

Easy Set Hardware Adjustments

Depth

Adjusts 5 cm behind back canes.

Depth

Adjusts 5 cm in front of back canes.

Angle

20° anterior range of back angle adjustment.

Angle

20° posterior range of back angle adjustment.

Rotation

Back may be orientated to accommodate pelvic/trunk rotation.

Other Mounting Hardware Options

Heavy Duty "Easy-Set" Mounting Hardware

- Standard with Heavy-Duty Posture Backs
- Recommended for users over 136 kg, high tone or heavy use

Fixed Space Saver Mounting Hardware

- Non-Portable
- Requires tools for removal of back from wheelchair
- Saves space for tighter width applications
- Fully adjustable, available as a no charge option

Split Mounting Hardware

- Provides clearance of mid back cane ridgidizer bars or other impedences on the back canes
- Not recommended for Heavy-Duty Posture backs
- Available as a no charge option

ETAC Mounting Hardware

Mounting Hardware that enables **Matrix backs** to be used with ETAC wheelchairs.

Flo-tech™ Solution

Slimline cushion with unique dual
fluid sac system

Yes, you can.®

The *Invacare **Matrix Flo-tech Solution*** cushion uses a combination of a slim, shaped foam cushion base and a dual layer of fluid sacs over the ischial and sacral area. The dual fluid sacs and the unique moulded foam shape of the solution increase the support surface area. This delivers a superior level of protection for patients identified as being at Very High Risk of developing pressure ulcers, or for those with already established tissue damage.

Features and Options

Ingress Resistant Cover

Cover is two-way stretch, water-resistant and vapour-permeable. Cover features an anti-slip base with carry handle.

Available in 44 sizes

The *Invacare **Matrix Flo-tech Solution*** is available in a range of 44 sizes, from 38 x 41 to 51 x 46 cm (38 x 41 to 510 x 460 mm). (See size chart for details).

Invacare *Matrix Flo-tech Deep Solution* option

Option of a 10 cm (100 mm) "Deep" foam base is also available in 12 sizes. (See size chart for details).

Ultra-fresh™ added to all cushions for antimicrobial and odour protection

Antimicrobial treatment that has been added to all ***Flo-tech*** foam to help make it resistant to the growth of odour causing bacteria. Helps provide longer lasting freshness.

Slimline contoured foam base with large dual fluid sac covering the entire top surface of the cushion

The contact area between the user and the foam cushion is protected, as the fluid displaces to redistribute pressure away from bony prominences. The additional layer of fluid is incorporated under the ischial and sacral area to further enhance the pressure reducing qualities of this cushion, making this cushion suitable for Very High Risk users.

Slimline contoured cushion

Some users prefer a slimline cushion, finding it more compatible with their daily living activities. The low profile is particularly beneficial for the facilitation of side transfers.

Technical data

For more comprehensive pre-sales information about this product, including the product's user manual, please see your local Invacare website.

SEATING SERIES

Flo-tech™ Image

Slimline cushion with fluid sac

Yes, you can.

The *Invacare **Matrix Flo-tech Image*** cushion uses a combination of a slim, shaped foam cushion base and a fluid sac covering the sacral area, increasing pressure distribution and immersion of the ischial tuberosities. This design delivers a high degree of protection to users who are at High Risk of developing pressure ulcers. This slim cushion format is ideal for both chair and wheelchair use.

Features and Options

Ingress Resistant Cover

Cover is two-way stretch, water-resistant and vapour-permeable. Cover features an anti-slip base with carry handle.

Available in 23 sizes

The *Invacare **Matrix Flo-tech Image*** is available in a range of 23 sizes, from 360 x 330 to 460 x 410 mm. (See size chart for details).

Integral Sag Compensator option

Option of sag compensator to accommodate the sag in wheelchair seats, and ensure the cushion is correctly presented.

Ultra-fresh™ added to all cushions for antimicrobial and odour protection

Antimicrobial treatment that has been added to all **Flo-tech** foam to help make it resistant to the growth of odour causing bacteria. Helps provide longer lasting freshness.

Slimline contoured foam and gel combination cushion

Some users prefer a slimline cushion, finding it more compatible with their daily living activities. The *Invacare **Matrix Flo-tech Image*** combines the benefit of a contoured foam upper surface with a large fluid sac covering the ischial and sacral area, offering increased support and reducing the peak pressures.

Contoured seating surface with gel sac

Offers improved stability and postural support; moulded foam castellations and fluid combine effectively to reduce shear and friction forces on tissue.

Technical data

SEATING SERIES

Contour Visco^{NG}

Conforms to the shape
of the user's body

Yes, you can.

The *Invacare Matrx Contour Visco^{NG}* cushion is an anatomically contoured 100% viscoelastic foam cushion. It provides excellent pressure redistribution properties to improve comfort and stabilise the pelvis. Its low-profile design promotes easy foot propulsion and enables access to lower tables.

Rear Radius

▶ Contoured radius provides additional support behind the pelvis for optimal pelvic positioning. The cushion radius can fit underneath the backrest upholstery or a contoured rigid back support, filling the gap normally seen when rear squared cut cushions are used. Maximizing the surface area of contact will improve pressure redistribution and skin protection

Waterfall front edge

▶ Provides maximum thigh support for improved leg positioning and pressure redistribution, without compromising the popliteal area of the knee joint. The waterfall front edge also accommodates those with tight hamstrings to allow foot positioning at 90 or less and enables foot propulsion

▶ The *Matrx Contour Visco^{NG}* provides superior immersion and envelopment. When sitting on the cushion the user will feel the viscoelastic foam slowly adapting to their body shape, increasing the surface of contact, and thus redistributing pressure. The *Matrx Contour Visco^{NG}* is available in a wide range of sizes and weight capacities, providing the best fit to the user. It includes 2 covers with 2 zippers, easy to remove for cleaning and maintenance. The covers are incontinence proof and bi-elastic to allow efficient immersion of the user body in the foam cushion. The non-slip base ensures that the cushion remains in place and the carry-handle allows easy transfer of the cushion from one surface to another.

SEATING SERIES

Libra[®] Cushion

Superior function with the highest
level of protection and positioning

Yes, you can.

With a perfect balance of immersion, off-loading and envelopment, the *Invacare Matrx Libra* cushion delivers the highest level of skin protection and positioning. The moulded foam base effectively redistributes forces to the hips and thighs, providing stability to optimise function. The unique dual layer fluid sac provides complete envelopment of bony prominences. Lightweight, low profile, and maintenance free, the *Libra* complements a variety of manual and power mobility bases. A full range of positioning accessories is available for extra support and targeted positioning.

Unique design

- Combination of foam and fluid for highest level of skin protection, positioning and adjustability for individual user needs
- New dual layer fluid sac with *Invacare's Flo-tech™* technology envelops bony prominences and reduces shear using non-temperature sensitive fluid for worry-free, reliable protection
- Highly durable HR-moulded foam base: innovative design increases immersion and balances posture

Functional benefits

- Improves pelvic stability from all sides, optimising function
- Suitable for users at very high risk for skin breakdown
- Lightweight, low-profile, and maintenance free, *Libra* complements an active lifestyle
- Recommended for all users including those with specific individual seating needs

Features and options

Immersion

Maximises surface contact area in order to reduce peak pressures. $Pressure = Force/Area$.

Off-Loading

Transfers forces away from the ischial tuberosities with greater weight bearing on the trochanters, hips and thighs.

Envelopment

Fluid sac completely surrounds the bony prominences, even during position changes.

Pelvic Stability

Contouring of the pelvic well provides lateral trochanteric support and anterior/posterior pelvic stability, promoting spinal extension for improved upper extremity function, head control and physiological function.

Features and options

Waterfall cut

For tight hamstrings, easier transfers and foot propulsion.

Cushion size

Actual seat depth is 380 mm longer when measured along the middle, due to the rear cushion radius.

Rear cushion radius

A 380 mm curved extension for maximum surface area minimizes gap between seat and backrest. Stabilizes fluid in tilted positions, with coccyx cut out for added relief.

Anterior wedge

Increases slope, prevents sliding and reduces shear.

Trimmed anterior wedge

For hip flexion limitations and/or lower seat height for foot propulsion.

Tapered wedge

For enhanced adductor support.

Tapered wedge

For obliquity and pelvic rotation when used in rear.

Lateral wedge

Reinforces lateral stability for enhanced midline positioning.

Fluid supplement sac

For targeted protection/obliquity accommodation. Fits securely inside main sac and pelvic well.

Abductor

For comfortable mid-line positioning of thighs and hips.

Side pocket for convenient storage

Includes quad pull cord.
